

Belsay Parish Council
Annual Report 2023 - 2024

The Parish Council has been encouraged by the relative success of the traffic scheme installed by the County Council. However efforts to add to the scheme by installing "gateways" at the entrances to Belsay have been thwarted by the County Council's inability to provide a specification for gateways. It is hoped that this will be resolved in the next few months.

The Parish Council has been consulted on a number of planning applications, none of which have been contentious.

The Clerk retired in March of this year and Members wished him well and thanked him for his work on behalf of the Parish Council.

Councillor Storey
